

Sunraysia's Community Playgroups: Term 1 2025

Community Playgroups run by community members are a great way for children 0-5yrs to learn about the world, make new friends and develop social skills. Parents, grandparents and carers also get a chance to share ideas and experiences.

Community Playgroups are run by volunteers and there is **sometimes a small cost each week** for arts and crafts.

Most playgroups only run during school terms – please contact each playgroup for dates and more information
